EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the specification:

- Page 1, replacing the paragraph under "Cross-Reference to Related Application" with the following paragraph:
--This application is a continuation-in-part of U.S. patent application Serial No. 09/413,226, filed October 13, 1998, now abandoned, which is a continuation of U.S. patent application Serial No. 08/886,383, filed July 1, 1997, now abandoned.—

The following is an examiner's statement of reasons for allowance: the prior does disclose the first reaction and the second reaction with the third reactions, as required in the instant claims, however, they are disclosed separately and there is no motivation to combine these reactions. The rejection over Nachod is withdrawn because as pointed out by Mr. Griffin in the declaration that the rate of reaction would not increase for the reasons stated in paragraph 4-5 and because the "molar ratio of approximately one to one" for the sulfuric acid and alkali metal chloride is critical for the reactions to proceed as required in the instant claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
